Career Pathways

Work From Home: Set up a home-based nail studio that fits around your lifestyle. With the right tools and training, you can offer professional nail art services to clients while keeping overheads low and flexibility high.

Work in a Salon: Salons love nail technicians who can offer creative, high-quality nail art. Adding these skills makes you stand out, expands your service menu, and helps you attract a loyal client base.

Start a Salon: If you dream big, opening your own nail salon could be your next step. While it requires more planning and investment, it gives you complete freedom to build a brand and create a space where your creativity can shine.

Rent a Chair: A flexible way to work in a professional environment without the upfront costs of your own salon. Many salons rent out chairs or nail stations, giving you the chance to build your clientele and grow your business with minimal risk.

WHY LEARN NAIL ART?

It adds value to your services

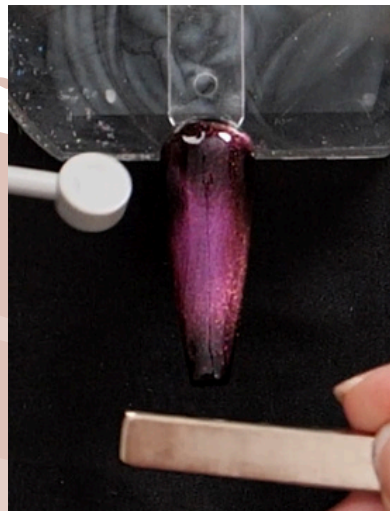

Nail art takes time, skill, and quality products. That's why it should never be offered for free. Even the simplest designs can increase your service price, and intricate work can be worth more than the nail enhancements themselves.

It keeps clients coming back

From ombré to marbling, foils, or glitter, there is always something new to try. Nail art gives clients a reason to return regularly, building loyalty and trust in your creativity.

Creative Expression

Your clients' nails become your canvas. Whether you love clean minimal designs or bold statement pieces, nail art allows you to express your artistry and stand out in the industry.

Who It's For

This course is perfect for:

- **Nail technicians** wanting to expand their service menu with creative nail art.
- **Students of nail technology** who want to specialise in artistic techniques.

It's designed as an add-on to existing nail skills, giving you the tools to confidently create a wide range of looks, from simple accents to advanced statement designs.

FAQS

You May Be Asking These Questions...

Is this course suitable for beginners?

This course is designed as an add-on for qualified or practising nail technicians. It focuses purely on the creative side of nail design, assuming you already have foundation training in nail prep, application, and enhancement systems. If you're brand new to nails, we recommend completing our Nail Technology course first to gain the fundamentals before specialising in nail art.

Will I have everything I need to get started?

If you choose the optional nail art kit, you'll receive all the essential tools and professional products needed to complete your training and begin offering services to clients. The kit is selected by our educators, ensuring you can practice confidently and provide a polished, salon-quality finish.

Can you guarantee a job after the course?

While we can't guarantee employment, this course equips you with practical, in-demand nail art skills that open multiple pathways, working in a salon, starting your own business, or offering freelance and mobile services. Ultimately, success comes from your skill, creativity, and ability to connect with clients, but we'll provide the training and support to get you there.

How will this course help me grow my business?

Nail art isn't just about creativity, it's also a powerful way to set yourself apart. By offering clients unique designs, from subtle accents to bold statement looks, you give them a reason to choose you over competitors and keep coming back. Many technicians find that adding nail art not only boosts their average service price but also strengthens client loyalty.

How much can I charge for nail art services?

Pricing depends on the type of service, time, and products used. Basic nail art may be added to a manicure for \$10–\$20 per set, while advanced designs like foils, chrome, or 3D acrylics can raise the price by \$50–\$100+ as a premium service. Many technicians build packages offering nail art as an upgrade to full sets of acrylic, BIAB, or gel extensions, maximising both client satisfaction and income.

QUALIFICATIONS

The Certificate You Receive

Certificate of Completion

On successful completion of our Nail Art Course, you will receive a certificate of completion.

This is all you need to demonstrate your skills, work in the industry, get insurance or start a business.

You do not need an accredited training program or apprenticeship to provide services in Australia.

Licensing & Regulatory Information

The Hair & Beauty Industry in Australia was deregulated in 1986. As there are no licensing requirements in force, it is no longer a legal requirement to undertake an accredited course to be able to work in the beauty industry or own/run a salon. This is also the case in many other countries, and many more countries currently in the process of deregulation.

As it says on the Australian Governments Training Website:

No occupational licensing, certification or specific legislative requirements apply to this qualification at the time of publication.

See Here: <https://training.gov.au/training/details/SHBBNLS010>

This means that many other training avenues have opened up for those interested in entering the beauty industry at a fraction of the price and with far less time restraints than traditional training.

Many RTO's now offer short courses alongside their accredited courses for those who do not have the time or money for the more formal qualification, or for those who just simply want to test the waters before they do commit to the higher qualification.

So just to clarify, if you are in a country like Australia, where there is no licensing requirement our Certificate is all you need to work in, or own and run a salon.

HOW IT WORKS

We Support You Every Step of the Way

We've been training students online in hair & beauty for over 16 years. In that time, we have perfected our online platform, content, our feedback and guidance processes to ensure students graduate with professional, salon-ready skills.

Learn from Industry Experts

Our experienced instructors aren't just industry professionals, they're dedicated educators who are here to **set you up for success**. Using our custom-built mobile **app** and unique **video feedback** tools, you'll receive tailored, step-by-step guidance designed to suit your pace and learning style.

You'll follow our proven 4-step learning process: Theory, Practice, Guidance, and Perfection, designed to build your confidence and skillset in a clear, structured way. At each stage, our team is with you, offering advice and feedback.

Theory

You will learn all of the theory you need through our online learning platform via both video content and online manuals. You will also participate in the online quizzes and have a final exam at the end of the course.

Practice

You will practice your skills step by step, starting with the foundations and moving onto the full services. We show you what to do on every step and exactly how to use the products for those services.

Guidance

We give you feedback and guidance on your work. Yes, we assess the work on each of your models and give you constant feedback on each of your skills at each step to keep you on track. Our courses are highly interactive.

Perfection

You'll practise each service as you learn, with our team guiding you every step of the way. By following our instructions and applying the feedback provided, you'll refine your techniques until you can deliver them with confidence and perfection.
